About KLiC Creditized Courses

These courses are aligned with the latest CBSE and HSC ICT syllabi, and combine academic relevance with practical digital skills. The course content has been thoughtfully created and enriched with simplified explanations, engaging visuals, and relatable examples tailored to school and college-level learners.

Learning Content and Methodology

he students learn these courses in a self-learning and self-paced learning mode. They learn by individually accessing interactive eLearning content with a dedicated computer and personal headphone for one or two hours a day by logging in to MKCL's ERA. As a result, in a lab of 50 computers, 50 students may learn 50 distinctly different KLiC Creditized Courses simultaneously.
